# Table Stand Installation

\*This Installation requires a minimum of two people.

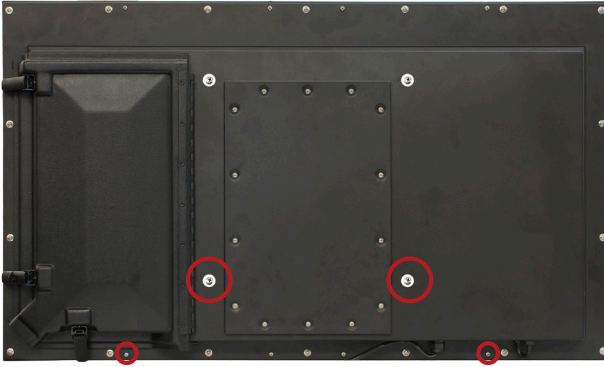

Lay blanket down on flat sturdy surface. Run hand over surface to make sure there are no sharp object or protrusions, when the television is laying down.

Lay the television viewing side down on blanket.

## Installation Manual - Table Stand

Remove: 2 - M6X12 screws, #8-23 screws, and washers indicated with red circles.

Place mounting plate on your tabletop. Use 4 holes indicated by the red circles/arrows to drill holes in your table top surface. Insert the fasteners that you have purchased and tighten securely.

**Left**

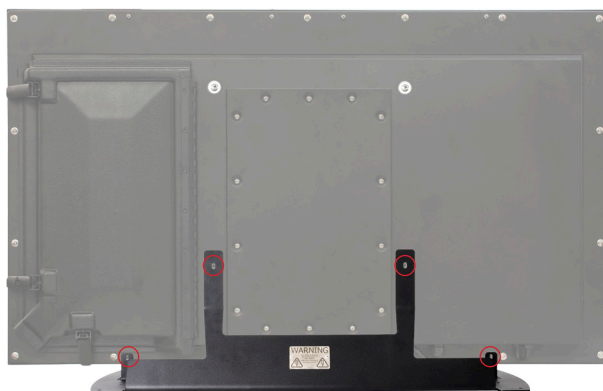

**Right**

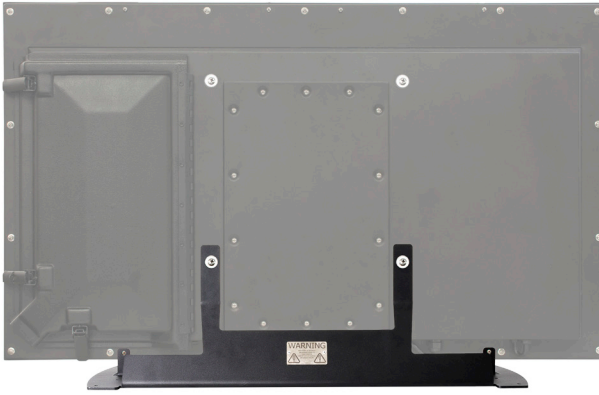

The following holes are used to mount the table stand to the back of the television.

**TABLE STAND**

With help from a friend align the holes of the table stand with the holes on the back of the television.

Reinsert the screws with the flat washers and tighten securely.

**\*Be sure not to over tighten.**

Congratulations you have successfully installed your table stand. If you have any questions call our tech support team
